

Application for Temporary Power Systems

Applicant Name: _____

Project Address: _____ APN: _____

Identify the end use:

- ☐ New construction:
Permit # _____ Zoning Clearance # _____
- ☐ Temporary housing during construction:
Zoning Clearance# _____
- ☐ Emergency housing after a declared natural disaster:
Incident name _____ SAP # _____
- ☐ Other: _____

I understand that all temporary power systems are subject to approval by Building and Safety. Temporary power systems shall be installed in accordance with Article 590 of the California Electrical Code and may be ordered to be disconnected from the serving utility per sections 108 and 116.3 of the Ventura County Building Code.

I understand and agree that Building and Safety may cause electric service to be disconnected from the serving utility if any portion of the building is occupied prior to approval or the use of the temporary power extends beyond the approved end use. Temporary power systems will be removed immediately upon the completion of construction purposes for which the wiring was installed.
