

# FILM PERMIT SAMPLE SITE MAP

A site map is an aerial image of the filming location. All filming activities (i.e base camp, parking, filming areas, etc.) must be indicated on the site map.

Requirements for site maps:

- Assessor's Parcel Numbers (APNs) for all filming activity
- Property lines
- Filming activity, with boundaries

To find the APN(s) of a property and create a map, visit the [County View](#) mapping application. For assistance using the application, and map creation visit the [User Guide](#) or the [How to Use Our County View for Site Maps](#).
