## ***Specific Emergency Procedures:***

### **FIRE**

In the event of a fire on the Brandeis-Bardin campus, the person spotting the fire shall alert the Alonim Directors using the Walkie-Talkie communication system on Channel 2 by saying **IMMEDIATELY RED** (the code for a fire) **along with the location of the fire**. A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

**IF A FIRE OCCURS WHEN THE MAIN OFFICES ARE OPEN**  
**Mondays through Thursday: 8:30 a.m. – 5:00 p.m., Friday: 8:30 a.m. – 2:30 p.m.**

The person spotting the fire or a Director shall then call **Camp Alonim's Enrollment and Communications Manager, Sharon Landes** [dial "731" from any BBC phone or **(805) 915-0731** from a cell phone] and inform her of the exact location and strength of the fire.

**Sharon Landes** will inform **senior staff members**, by calling (in this order) **Daniel Maccabee, Aaron Goldberg, Myra Meskin, Karen Garelik, Sammy Gonzalez, Arturo Gonzalez, Jacob Martinez Raizman, and Jennifer Simpson**. **Sharon Landes** will assist in making these calls.

Senior staff will be dispatched to the location of the alarm. They will determine if the Ventura County Fire Department shall be notified. In that event, they will inform the fire department [Dial **911**].

**If the fire is in an area that must be evacuated, the person spotting the fire should pull the fire alarm at the building nearest to the fire. The immediate area must then be evacuated.**

Simultaneously an alarm will be sounded at the Administration Building. Upon hearing that alarm, **Sharon Landes** will inform **senior staff** by calling their cell phones. Office personnel

named above will assist in making these calls.

Other steps will be followed as stated above.

**Senior staff members** will determine if an all-camp evacuation is necessary. If it is, the evacuation alarm located just outside the front door of the Administration Building will be pulled.

**IF A FIRE OCCURS WHEN THE MAIN OFFICES ARE CLOSED**

**Mondays through Thursdays – before 8:30 a.m. and after 5:00 p.m.**

**Fridays – before 8:30 a.m. and after 2:30 p.m.**

**ALL HOURS on Saturdays – Sundays**

In the event of a fire on the Brandeis-Bardin Campus, the person spotting the fire shall call the following staff in order, until they are able to reach a staff member:

and inform them of the exact location and strength of the fire. Staff members who are nearby shall assist in making these calls. The staff member who is alerted must call the other senior staff members.

When senior staff members dispatch to the location of the fire, they will determine if the Ventura County Fire Department shall be notified. In that event, they will inform the fire department [Dial **911**].

**If senior staff does not respond immediately and there is no question as to the severity of the fire, the person spotting the fire should call the Ventura County Fire Department [Dial 911 (9-911 from a BBC landline)].**

**Senior staff members will determine if an all-camp evacuation is necessary. If it is, the evacuation alarm must be pulled at the Administration Building.**

***Once the Fire Department has been informed, inform the Front Gate Guard: 805 387-0135 (cell) and Walkie Channel 3.***

## **EARTHQUAKE**

**EARTHQUAKE PROCEDURES ARE THE SAME AS THOSE FOR A FIRE, EXCEPT:**

- 1) DROP
- 2) COVER THEIR HEADS AND NECKS
- 3) CROUCH LOW AGAINST A WALL WHERE THERE ARE NO HAZARDS ABOVE

**IF OUTDOORS, EVERYONE SHALL BE DIRECTED TO AN OPEN AREA. MOVE AWAY FROM ALL TREES, BUILDINGS, WALLS AND POWER LINES.**

After the earthquake has subsided, the Alonim Directors using the Walkie-Talkie communication system shall activate the earthquake response plan on Channel 2 by instructing all staff to be on Channel 3 (the emergency walkie channel). Directions will be given regarding the appropriate meeting place if the usual locations are inaccessible.

The procedures as written for a fire emergency shall be followed to ensure the safety of the entire camp population. It is very important to remain as calm as possible. To be best prepared, it is advisable for each person to keep a pair of shoes and a flashlight near his/her bed should an earthquake occur during the night.

**Daniel Maccabee** will contact **Sammy Gonzalez** and **Arturo Gonzalez** to direct the grounds staff in the shutting off of gas and water lines. The following staff, in the following order, are directed to shut off the gas and water lines should Sammy Gonzalez and Arturo Gonzalez be off the grounds: **Miguel Ramos** and **Antonio Espinoza**.

## **MISSING INDIVIDUAL/SEARCH AND RESCUE**

Should a member of the community be reported as missing, a group of staff will be organized (under the supervision of the individual program director) to conduct a search of the immediate camp area. The campus medical staff will also be notified. Individual camp program directors are:

Camp Alonim – <b>Aaron Goldberg</b>	<b>818 635-1431</b>

**Jackie Grinwald** and **Myra Meskin** shall notify **Aaron Goldberg** as soon as practicable if a member of their programs is reported as missing.

In the event of a missing individual, the emergency response plan should be activated by using the Walkie-Talkie communication system to alert the Alonim Directors on Channel 2 and saying **IMMEDIATELY PINK** (the code for a missing individual) **along with your location**. A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

Directors will interview fellow campers/BCIers and staff in an effort to collect information regarding the most recent whereabouts of the missing individual, as well as a description. Be sure you know the following information about the individual:

- Name
- Bunk/Cottage
- Description, including clothing and shoes
- Approximate time person was noticed missing
- State of mind
- Any issues
- Last known location

Search team members will carry whistles to facilitate communication across large areas. These whistles can be found in the top drawer of the nurse's station in the health center.

If the individual has not been found in the immediate camp area within thirty minutes, **Daniel Maccabee** and **Cesar Delfin** shall be notified. If they are both absent, this duty transfers to **Sammy Gonzalez**.

## **STRANGER IN CAMP**

Never approach someone you do not recognize by yourself. If you see someone, of any age, who you do not recognize – and *only* if you believe the situation is safe – please try if at all possible to approach him/her with someone, welcome this person to camp, and ask politely for his/her name.

Anyone in the camp community becoming aware that a potential stranger is in camp should notify senior camp personnel immediately.

In the event of a potential stranger in camp, the emergency response plan should be activated by using the Walkie-Talkie communication system to alert the Alonim Directors on Channel 2 and saying **IMMEDIATELY YELLOW** (the code for a stranger in camp) **along with the location and a description of the potential stranger**. A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

In addition, on weekdays (except July 4th) between the hours of 8:30 a.m. and 5:00 p.m. (until 2:30 p.m. on Fridays), notify the **receptionist** [dial **0** from any campus phone or **(805) 582-4450** from a cell phone]. Report the sighting of a stranger – as well as the location and description of the individual, including clothing – to the receptionist, who will notify camp directors and ranch personnel.

On weekends, and on weekdays before 8:30 a.m. and after 5:00 p.m. (after 2:30 p.m. on Fridays), notify all of the following (in this order):

<b>Gate Security</b>	<b>805 387-0135 (cell) or 805 915-0136 (land)</b>

<b>Jackie Grinwald</b>	<b>818 720-5203</b>
<b>Myra Meskin</b>	<b>818 523-9701</b>
<b>Karen Garelik</b>	<b>805 368-8873</b>
<b>Jacob Martinez Raizman</b>	<b>818 738-8062</b>
<b>Jennifer Simpson</b>	<b>818 237-6081</b>
<b>Sammy Gonzalez</b>	<b>805 404-5626</b>

**Arturo Gonzalez**

**805 404-8981**

Camp program directors and/or ranch personnel will take appropriate action to search for and locate intruders. Should the camp staff and security personnel not be able to locate intruders or need assistance in handling them, the Ventura County Sheriff's department and/or Simi Valley Police department will be contacted [dial **911**].

## **HOSTILE EVENT / LOCKDOWN**

An intruder who may have the intention of imminently harming anyone is classified as Hostile Event / Lockdown.

In the event of a potential Hostile Event, the emergency response plan should be activated by using the Walkie-Talkie communication system to alert the Alonim Directors on **Channel 2** and saying **IMMEDIATELY LOCKDOWN** (the code for a potential hostile event) **along with the location and a description of the potential intruder**. A Director will then instruct all staff or select staff to switch to **Channel 3** (the emergency walkie channel) to communicate, and will communicate the situation to the security guards on Channel 3.

**When the Hostile Event/Lockdown Emergency Action Plan is activated, all staff should take all campers/participants in their care and immediately run to the nearest shelter area as defined below. (If not near any listed shelter area or otherwise unable to get to a listed shelter area safely, staff should help campers/participants shelter in place in the best possible nearby location.)**

Once inside a shelter, group all individuals furthest from any doors and windows. Stay low to the ground. Lock doors that are able to lock and move furniture to block entry points. Turn off lights. The best action is to be *out of sight and silent*. Once your area is secure, do not let anyone in your room without confirming that person's identity.

*Radio silence should be maintained and all individuals should shelter in place.*

A Director (or, if a Director is unreachable, a staff member) shall report the potential hostile event – as well as the location and description of the individual(s) – to as many of the following as possible (in this order) for as long as it is safe to do so:

<b>Emergency Services</b>	<b>911 (9-911 from a BBC landline)</b>
<b>Gate Security</b>	<b>805 387-0135 (cell) or 805 915-0136 (land)</b>

<b>Jacob Martinez Raizman</b>	<b>818 738-8062</b>
<b>Jennifer Simpson</b>	<b>818 237-6081</b>
<b>Sammy Gonzalez</b>	<b>805 404-5626</b>
<b>Arturo Gonzalez</b>	<b>805 404-8981</b>

When calling 911, the location to be given is **“American Jewish University – Brandeis-Bardin Campus at 1101 Peppertree Lane – take Tapo Canyon Road south past Guardian Street.”**

All individuals should shelter in place until hearing the words **“Brandeis is clear, Bardin is**

**clear**" over radios/megaphones from a Director or first-responders. When that is called, everyone will quickly walk to Terry Field for an all-camp count unless an alternate location is given by a Director. (See "Movement of the Camps & Staffs" above.) If possible, senior staff members will be on golf carts informing each shelter area to quickly walk to the all-camp count. **Only Directors may begin radio conversations during this time.**

Groups out of main camp (e.g., at HOB or Hidden Valley) should shelter in place and stay on Channel 3 unless and until they receive alternate instructions by a Director via walkie.

## **BOMB THREAT**

Typically, bomb threats are received by phone. Bomb threats are serious until proven otherwise.

**If a bomb threat is received by phone:**

1. Remain calm. Keep the caller on the line for as long as possible. DO NOT HANG UP, even if the caller does.
2. Listen carefully. Be polite and show interest.
3. Try to keep the caller talking to learn more information.
4. If possible, write a note to a colleague to call the authorities or, as soon as the caller hangs up, immediately notify them yourself.
5. If your phone has a display, copy the number and/or letters on the window display.
6. Complete the **Bomb Threat Checklist** immediately. Write down as much detail as you can remember. Try to get exact words. **A Bomb Threat Checklist is in the Administration Building and the Alonim Summer Office.**
7. Immediately upon termination of call, DO NOT HANG UP. Use a different phone to contact authorities immediately with information and await instructions.

**If a bomb threat is received by handwritten note:**

- Handle note as minimally as possible.

**If a bomb threat is received by e-mail:**

- Do not delete the message.

In the event of a potential bomb threat, the emergency response plan should be activated by using the Walkie-Talkie communication system to alert the Alonim Directors on Channel 2 and saying **IMMEDIATELY BLACK** (the code for a bomb threat) **along with the location of the person who has identified the potential threat (e.g., the person who received the call)**. A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

Upon confirming a bomb threat was received, a Director (or, if a Director is unreachable, a staff member) shall report the potential bomb threat to as many of the following as possible (in this order):

<b>Emergency Services</b>	<b>911 (9-911 from a BBC landline)</b>
<b>Gate Security</b>	<b>805 387-0135 (cell) or 805 915-0136 (land)</b>
<b>Daniel Maccabee</b>	<b>805 404-8977</b>
<b>Cesar Delfin</b>	<b>805 404-8974</b>
<b>Aaron Goldberg</b>	<b>818 635-1431</b>
<b>Jackie Grinwald</b>	<b>818 720-5203</b>
<b>Myra Meskin</b>	<b>818 523-9701</b>
<b>Karen Gareluk</b>	<b>805 368-8873</b>
<b>Jacob Martinez Raizman</b>	<b>818 738-8062</b>
<b>Jennifer Simpson</b>	<b>818 237-6081</b>
<b>Sammy Gonzalez</b>	<b>805 404-5626</b>
<b>Arturo Gonzalez</b>	<b>805 404-8981</b>

When calling 911, the location to be given is **“American Jewish University – Brandeis-Bardin Campus at 1101 Peppertree Lane – take Tapo Canyon Road south past Guardian Street.”**

**After alerting authorities, Aaron Goldberg** shall evaluate the threat using the FBI and Department of Homeland Security’s Bomb Threat Assessment matrix below. Based on the Threat Assessment, the Director in charge shall consider taking one or more of the following steps before authorities arrive:

- Take no further action until authorities arrive.
- Restrict access to building(s) or area(s)
- Conduct partial or full lockdown
  - Decide whether to require “shelter in place” or “take cover in shelter areas” (see above for locations)
- Conduct partial or full evacuation (see “Movement of the Camps & Staffs” above)
  - If evacuation is initiated, select evacuation routes and assembly areas that are not in the vicinity of the suspicious item; ensure these routes have been searched and cleared.
- Initiate all-camp evacuation
  - **Senior staff members** will determine if an all-camp evacuation is necessary. If it is, the evacuation alarm located just outside the front door of the Administration Building will be pulled.

If **Aaron Goldberg** is absent, **Karen Gareluk** will serve as the substitute. If **Karen Gareluk** is absent, **Jacob Martinez Raizman** will serve as the substitute. If **Jacob Martinez Raizman** is

absent, **Jennifer Simpson** will serve as the substitute.

### Bomb Threat Assessment

- **Low Risk**
  - *Lacks Realism: A threat that poses a minimum risk to the victim and public safety. Probable motive is to cause disruption.*
    - Threat is vague and indirect.
    - Information contained within the threat is inconsistent, implausible, or lacks detail.
    - Caller is definitely known and has called numerous times.
    - The threat was discovered instead of delivered (e.g., a threat written on a wall).
- **Medium Risk**
  - *Increased Level of Realism: Threat that could be carried out, although it may not appear entirely realistic.*
    - Threat is direct and feasible.
    - Wording in the threat suggests the perpetrator has given some thought on how the act will be carried out.
    - May include indications of a possible place and time.
    - No strong indication the perpetrator has taken preparatory steps, although there may be some indirect reference pointing to that possibility.
    - Indication the perpetrator has details regarding the availability of components needed to construct a bomb.
    - Increased specificity to the threat (e.g., "I'm serious!" or "I really mean this!")
- **High Risk**
  - *Specific and Realistic: Threat appears to pose an immediate and serious danger to the safety of others.*
    - Threat is direct, specific, and realistic; may include names of possible victims, specific time, and location of device.
    - Perpetrator provides his/her identity.
    - Threat suggests concrete steps have been taken toward carrying out the threat.
    - Perpetrator indicates they have practiced with a weapon or have had the intended victim(s) under surveillance.

## **SUSPICIOUS ITEM**

A suspicious item is anything (e.g., package, vehicle) that is reasonably believed to contain explosives, an IED, or other hazardous material that requires a bomb technician to further evaluate it. Potential indicators are threats, placement, and proximity of the item to people and valuable assets. Examples include unexplainable wires and electronics, other visible bomb-like components, unusual sounds, vapors, mists, or odors. Generally anything that is **Hidden**, **Obviously suspicious**, and not **Typical (HOT)** should be deemed suspicious.

Individuals handling mail should be aware of the following signs of a suspicious package:

<ul style="list-style-type: none"><li>• No return address</li><li>• Strange odor</li><li>• Poorly handwritten</li><li>• Foreign postage</li></ul>	<ul style="list-style-type: none"><li>• Excessive postage</li><li>• Strange sounds</li><li>• Misspelled words</li><li>• Restrictive notes</li></ul>	<ul style="list-style-type: none"><li>• Stains</li><li>• Unexpected delivery</li><li>• Incorrect titles</li></ul>
---	---	---

In the event that someone believes there is a suspicious item, **DO NOT touch**, tamper with, or move the item. One person shall keep the item in sight and other people away from the item, while another person steps away from the immediate vicinity (100 feet away) and activates the emergency response plan using the Walkie-Talkie communication system to alert the Alonim Directors on Channel 2 – saying **IMMEDIATELY BLUE** (the code for a suspicious package) **along with the location of the package**. A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

If the suspected suspicious item is located in an Alonim program/living area:

- **Aaron Goldberg** shall evaluate the threat as Director in charge. If **Aaron Goldberg** is absent, **Karen Garelik** will serve as the substitute. If **Karen Garelik** is absent, **Jacob Martinez Raizman** will serve as the substitute. If **Jacob Martinez Raizman** is absent, **Jennifer Simpson** will serve as the substitute.

If the suspected suspicious item is located in a BCI program/living area:

- **Myra Meskin** shall be contacted to evaluate the threat as Director in charge.

If the suspected suspicious item is located anywhere else on the property:

- **Daniel Maccabee** shall be contacted to evaluate the threat as Director in charge. If **Daniel Maccabee** is absent, **Cesar Delfin** will serve as the substitute.

Considerations for Director in charge, according to FBI and Department of Homeland Security:

- Not all items are suspicious.
- An “unattended item” is anything (e.g., bag, package, vehicle) not in someone’s possession and where there are no obvious signs of being suspicious (see above), especially if no threat was received.
- The discovery of one suspicious item does not mean that it is the only such item. More suspicious items may be present.

If the Director in charge believes there may be a suspicious item, the Ventura County Sheriff’s department and/or Simi Valley Police department shall be contacted [**dial 911 (9-911 from a BBC landline)**]. When calling 911, the location to be given is **“American Jewish University – Brandeis-Bardin Campus at 1101 Peppertree Lane – take Tapo Canyon Road south past Guardian Street.”**

If authorities are contacted, the Director in charge shall instruct another staff member to contact **all** of the following people (in order):

<b>Gate Security</b>	<b>805 387-0135 (cell) or 805 915-0136 (land)</b>
<b>Daniel Maccabee</b>	<b>805 404-8977</b>
<b>Cesar Delfin</b>	<b>805 404-8974</b>
<b>Aaron Goldberg</b>	<b>818 635-1431</b>
<b>Jackie Grinwald</b>	<b>818 720-5203</b>
<b>Myra Meskin</b>	<b>818 523-9701</b>
<b>Karen Garelik</b>	<b>805 368-8873</b>
<b>Jacob Martinez Raizman</b>	<b>818 738-8062</b>
<b>Jennifer Simpson</b>	<b>818 237-6081</b>
<b>Sammy Gonzalez</b>	<b>805 404-5626</b>
<b>Arturo Gonzalez</b>	<b>805 404-8981</b>

The Director in charge shall also consider taking one or more of the following steps before authorities arrive:

- Restrict access to building(s) or area(s)
- Conduct partial or full lockdown
  - Decide whether to require “shelter in place” or “take cover in shelter areas” (see above for locations)

- Conduct partial or full evacuation (see “Movement of the Camps & Staffs” above)
  - If evacuation is initiated, select evacuation routes and assembly areas that are not in the vicinity of the suspicious item; ensure these routes have been searched and cleared.
- Initiate all-camp evacuation
  - **Senior staff members** will determine if an all-camp evacuation is necessary. If it is, the evacuation alarm located just outside the front door of the Administration Building will be pulled.

## SNAKE SIGHTING

In the event of a potential snake in camp, the emergency response plan should be activated by using the Walkie-Talkie communication system to alert the Alonim Directors on Channel 2 and saying **IMMEDIATELY GREEN** (the code for a snake sighting) **along with the location of the snake**. A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

**In the event of a snake sighting when the main offices are open** *Mondays through Thursdays (except July 4th) 8:30 a.m. – 5:00 p.m., Fridays 8:30 a.m. – 2:30 p.m.*, one person shall keep the snake in sight while another calls the **receptionist** [dial “0” from any BBC phone or (805) 582-4450 from a cell phone] to inform her of the exact location of the snake sighting.

The **receptionist** will inform **agricultural staff** by calling **Arturo Gonzalez** and **Sammy Gonzalez**. Senior staff members – **Aaron Goldberg, Jackie Grinwald, Myra Meskin**, and **Daniel Maccabee** – will also be notified, depending on the snake’s reported location.

Agricultural and senior staff will be dispatched to the location of the sighting.

**In the event of a snake sighting when the main offices are closed** *Mondays through Thursdays – before 8:30 a.m. and after 5:00 p.m., Fridays before 8:30 a.m. and after 2:30 p.m., ALL HOURS on Saturdays – Sundays – and July 4th*, one person shall keep the snake in sight while another calls **Arturo Gonzalez**. Should Arturo Gonzalez not respond immediately, the person will call **Sammy Gonzalez**.

Agricultural and senior staff will be dispatched to the location of the sighting.

<b>Arturo Gonzalez</b>	<b>805 404-8981</b>
<b>Sammy Gonzalez</b>	<b>805 404-5626</b>
<b>Aaron Goldberg</b>	<b>818 635-1431</b>
<b>Jackie Grinwald</b>	<b>818 720-5203</b>

## WILDLIFE

The Brandeis-Bardin Campus is the natural habitat for many animals. It is populated by and surrounded by various forms of wildlife. This is one reason it is important for program participants to always have someone with them (“buddy system”) and not to venture out alone. Hikes should be in groups, routes should be approved in advance, and hikers should bring a walkie-talkie set to Channel 3. Avoid walking alone between dusk and dawn. Avoid areas with

evidence of freshly-killed animals.

In the event a potentially dangerous wild animal is spotted by a camp participant, the emergency response plan should be activated by using the Walkie-Talkie communication system to alert the Alonim Directors on Channel 2 and saying **IMMEDIATELY GREY** (the code for a wildlife sighting) **along with the location of the animal and any observed behavior**. (If on a hike out of camp, Channel 3 should be used.) A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

*Only* if it is safe to do so, the person spotting the wild animal should keep the animal in sight until assistance arrives – always from a safe distance. *Never* approach or corner a wild animal.

A Director will provide instructions to staff, depending on the type and location of the potential threat, and any observed behavior. Possible actions to take will include:

- Instructing everyone to stay clear of the area where the animal has been sighted.
- Directing campers and staff to the safest indoor locations away from the threat. (This may include buildings with windows/doors that are able to be locked.)

A Director will inform **agricultural staff** by calling **Arturo Gonzalez** and **Sammy Gonzalez**. Senior staff members – **Aaron Goldberg, Jackie Grinwald, Myra Meskin, and Daniel Maccabee** – will also be notified, depending on the animal's reported location.

If it is safe, agricultural and senior staff will be dispatched to the location of the sighting.

<b>Sammy Gonzalez</b>	<b>805 404-5626</b>
<b>Aaron Goldberg</b>	<b>818 635-1431</b>
<b>Jackie Grinwald</b>	<b>818 720-5203</b>
<b>Myra Meskin</b>	<b>818 523-9701</b>
<b>Daniel Maccabee</b>	<b>805 404-8977</b>

### **Mountain Lions**

It is very unlikely that a participant will encounter a mountain lion. Such animals generally are reclusive and avoid making any contact with humans.

To distinguish a mountain lion from similar animals: Adult mountain lions have a tan-colored coat. Adult males will measure 6 to 8 feet from nose to tail tip and females 5 to 7 feet. The most recognizable feature of the American lion is its long and heavy tail, which measures almost one-third of the lion's total length.

If a mountain lion is encountered, the following specific steps should be taken:

1. **Do NOT run away. (This is very important.)**
2. Do NOT turn your back to the animal. Maintain constant eye contact with the animal.
3. Do NOT approach the animal. Do NOT corner the animal. Give the animal room and time to move on.
4. Make yourself appear as BIG as possible. Stand tall. Look bigger by using your clothing and raising your arms.
5. If the lion approaches, slowly wave your arms and speak LOUDLY and firmly.
6. In the rare event of an attack, fight back – including with objects around you. Protect your neck.

As soon as possible once the situation is no longer imminent, the Wildlife emergency-response

procedure should be activated.

## **MEDICAL EMERGENCY**

The Medical Emergency Action Plan will be activated in the event of a medical emergency – any injury or illness that includes any of the following:

- Change in level of consciousness (due to potential heat illness or any other reason)
- Significant blood loss
- Suspected fracture
- Head or neck trauma
- Electric shock
- Poisoning
- Breathing problems
- Signs of anaphylaxis and/or administration of an epi-pen
- Seizures
- Or any life-threatening situation

The senior-most staff member who witnessed the incident resulting in the medical emergency will follow the procedure below. All other staff members are responsible for maintaining a calm atmosphere and keeping the area clear of other people. Continue activities in area as much as possible.

**1. Immediately alert the Health Center by switching to Channel 3 and communicating with the Health Center the following information:**

- **IMMEDIATELY ORANGE** (the code for a medical emergency) **followed by the location of the victim.**
- Name of victim, if known
- Program
- The apparent condition/status of the victim.
- Any pertinent information about the incident. (Do not delay the message in order to gather this information.)

**If there is no staff member with a walkie-talkie nearby, the staff member should send another staff member (or CIT/camper if no staff are present) to go immediately to the Health Center to relay this information. If a phone is nearby, call the Health Center at x1754 or (805) 582-4454.**

2. Only approach the victim if the area is safe from obstacles or dangers that could injure you.

3. Render first aid if certified, but do not move the victim unless absolutely necessary. If any bodily fluids are involved, use universal precautions (gloves and masks) to protect yourself. Try to help the victim remain calm and never leave the person alone.

4. Designate someone to move other people away from the area.

5. Stay with the victim until qualified medical staff arrives.

6. Fill out an incident report in the office with a Director.

**Upon being alerted about a potential Medical Emergency, a Health Center staff member who is not otherwise engaged in responding to the emergency directly shall**

**switch to Channel 2** temporarily and say **IMMEDIATELY ORANGE** (the code for a medical emergency) **followed by the location of the victim and any pertinent information**. A Director may then instruct all staff or select staff to switch to Channel 3 (the emergency walkie channel) to communicate on this issue.

**In emergency situations, for injuries or illnesses beyond the scope of the resources available in camp, when immobilization is deemed necessary, or when an epi-pen is administered, 911 will be called (9-911 from a landline).**

When calling 911, the location to be given is **“American Jewish University – Brandeis-Bardin Campus at 1101 Peppertree Lane – take Tapo Canyon Road south past Guardian Street.”** Describe the medical situation and give the present location of the injured/ill individual (e.g., the camp’s Health Center).

Once the 911 call is placed, the Health Center staff, a director if present, or another senior staff member who is present shall do all of the following:

- **Contact a Director** (channel 2) if one is not already present
- **Call the front gate** (818 441-4992 (cell) or 805 915-0136 (land)) or walkie the front gate (channel 3) to tell the guard on duty that emergency vehicles are coming on site and where they should be directed.
- **Contact Tech staff** (channel 2) or another staff member in a vehicle (preferred) or on a bicycle and instruct him/her to go to the front gate to guide emergency responders into camp and directly to the location of the injured/ill individual.
- **Contact the Head Counselors** (channel 2) to keep other campers and staff a safe distance away from the location of the injured/ill individual.

## **POWER FAILURE/ROTATING OUTAGES**

In the event that we are notified that a rotating outage will occur, individual camp program directors and ranch staff will be informed by cell phone. Directors will re-schedule activities, locate flashlights and make other plans, as appropriate for each age group.

All cottages, bunks and public rooms are equipped with emergency flashlights. Additional flashlights and batteries are stored in the following areas:

**Camp Alonim:**

Health Center  
Head Counselor Cottages  
Alonim Summer Office  
Alonim Kitchen  
Needleman Activities Building (Art Room)

**Gan Alonim Day Camp:**

Squirrel Hall

**BCI:**

Wapner Main House Patio tech room  
Molle Library tech room  
Gunther Dining Hall Kitchen

**K’tonton:**

Fligelman Lecture Hall/Silberman Childcare Center

Once power is cut, staff members ("monitors" – see earlier in this manual) must be dispatched to turn off all lights, air-conditioners, computers and any other non-essential items to avoid a power surge and avoid unnecessary usage when electricity is restored. Refrigerators, freezers and ice machines should remain plugged in.

During a power outage, the doors of refrigerators, freezers and ice machines should remain closed as much as possible.

## CONTACTING ALONIM PARENTS IN THE EVENT OF AN EMERGENCY/EVACUATION
