

Mr. Adrian Breitfeld

July 1, 2025

Vice President for Finance and Administration

American Jewish University

Subject: Collaboration and Review of Emergency Procedures Plan for Brandeis Bardin Campus, American Jewish University

Mr. Breitfeld,

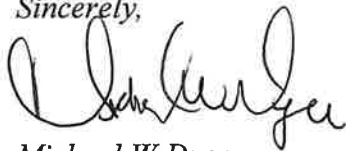

This letter serves to confirm that I, Michael Dyer, a retired Santa Barbara County Fire Chief and NFPA Wildfire Mitigation Specialist, has thoroughly reviewed and actively collaborated with the administration of the Brandeis Bardin Campus of American Jewish University in Simi Valley on the development of its current Emergency Procedures Plan for 2025.

My expertise and experience in fire safety, emergency management, and wildfire mitigation was utilized by American Jewish University to enhance the robustness and comprehensiveness of the campus's safety protocols. My review and input ensured that the plan incorporates best practices and addresses specific considerations relevant to the campus's location and operational needs.

The collaboration involved a detailed assessment of existing procedures, identification of potential vulnerabilities, and the integration of strategic improvements to bolster the campus's preparedness for various emergency scenarios, particularly those related to wildfire.

I can confirm that the 2025 Preparedness and Procedures Plan for the Brandeis-Bardin Campus significantly strengthens the preparedness, safety and security framework of the Brandeis Bardin Campus, providing a safer environment for its students, staff, and visitors.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael W Dyer", written over a horizontal line.

Michael W Dyer

Retired Fire Chief

NFPA Certified Wildfire Mitigation Specialist
